CONTENTS VOL. 103, 1988

Research Papers

Tritium and helium isotopes as hydrologic tracers in a shallow unconfined aquifer
R.J. Poreda (La Jolla, Calif., U.S.A.), T.E. Cerling (Salt Lake City, Utah, U.S.A.) and D.K. Salomon (Oak Ridge, Tenn., U.S.A.). 1
A two-dimensional finite element model for dispersion (2D-FED) in coastal aquifers
M.M. Sherif, V.P. Singh (Baton Rouge, La., U.S.A.) and A.M. Amer (Giza, Egypt). . . 11
Laboratory experiments on resistance to overland flow due to composite roughness.
G. Rauws (Leuven, Belgium). 37
Calibration of a root water uptake model in spatially variable soils
J.W. Hopmans (Davis, Calif., U.S.A.) and E. Guttièrez (Górdoba, Spain) 53
Lognormal kriging for the assessment of reliability in groundwater quality control observation networks
L. Candela (Barcelona, Spain), R.A. Olea (Lawrence, Kans., U.S.A.) and E. Custodio (Barcelona, Spain) 67
Geostatistical schemes for groundwater sampling
S. Rouhani and T.J. Hall (Atlanta, Ga., U.S.A.) 85
Calibration, sensitivity and validation of a physically-based rainfall–runoff model
A. Calver (Wallingford, U.K.) 103
Application of geophysical methods in describing spatial variability of saturated hydraulic conductivity in the zone of aeration
O. Mazác (Barrandoc, Czechoslovakia), M. Císlerová (Dejvice, Czechoslovakia) and T. Vogel (Prague, Czechoslovakia) 117
The theory of runs with applications to drought prediction
L.A. Moyé, A.S. Kapidia, I.M. Cech and R.J. Hardy (Houston, Tex., U.S.A.) 127
Nature of the dissolved load of the Krishna River Basin, India
R. Ramesh (New Delhi, India) and V. Subramanian (Montreal, Que., Canada). 139
Linear models for river flow routing on large catchments
G.C. Liang (Beijing, P.R. of China) and J.E. Nash (Galway, Ireland) 157
Nouvelles équations de propagation d'un polluant dans une nappe souterraine (New equations of the spreading of a tracer in groundwater)
E. Carlier (Villeneuve d'Ascq, France) 189
Complex Markov models to simulate persistent streamflows
Bayazit, M. and Bulu, A. (Istanbul, Turkey) 199
Flow regime associated with partially penetrating large-diameter wells in hard rocks
C.P. Gupta and V.S. Singh (Hyderabad, India) 209
Analysis of pump test data for a large diameter well near a hydrogeological boundary
V.S. Singh and C.P. Gupta (Hyderabad, India) 219
On the validity of first-order prediction limits for conceptual hydrologic models
G. Kuczera (New Castle, N.S.W., Australia) 229
Finite element model of nitrogen species transformation and transport in the unsaturated zone
J.J. Kaluarachchi and J.C. Parker (Blacksburg, Va., U.S.A.). 249
Studies of a subarctic coastal march, I. Hydrology
J.S. Price (St. John's, Nfld., Canada) and M.K. Woo (Hamilton, Ont., Canada) 275
Studies of a subarctic coastal march, II. Salinity
J.S. Price (St. John's, Nfld., Canada) and M.K. Woo (Hamilton, Ont., Canada) 293

Effect of baseflow separation procedures on surface runoff models
B.C. Bates (Wembley, W.A., Australia) and P.K. Davies (Leederville, W.A., Australia) 309
Streamflow and stream salinity in a small water supply catchment in southwest Western Australia after reforestation
H. Borg, R.W. Bell and I.C. Loh (Leederville, W.A., Australia) 323
Hydrological behaviour of the Nilgiri watersheds as affected by bluegum plantations, Part I. The annual water balance
P. Samraj (Ootacamund, India), V.N. Sharda (Dehra Dun, India), S. Chinnamani (Vasad, India), V. Lakshmanan and B. Haldorai (Ootacamund, India) 335
Hydrological behaviour of the Nilgiri watersheds as affected by bluegum plantations, Part II. Monthly water balances at different rainfall and runoff probabilities
V.N. Sharda (Dehra Dun, India), P. Samraj (Ootacamund, India), S. Chinnamani (Vasad, India) and V. Lakshamanan (Ootacamund, India) 347
Practical generation of synthetic rainfall event time series in a semi-arid climatic zone
J.J. Bogárdi (Bangkok, Thailand), L. Duckstein (Cleveland, Ohio, U.S.A.) and O.H. Rumambo (Dodoma, Tanzania) 357
Nature of solute transport in the Godavari Basin, India)
G. Biksham (Newark, Del., U.S.A.) and V. Subramanian (New Delhi, India). 375

Book Reviews

Subsurface Drainage Instructions by R. Eggelsman — W.H. van der Molen 393
Vulnerability of Soil and Groundwater to Pollutants by W. van Duijvenbooden and H.G. van Waegeningh (Editors) — W.H. van der Molen . . 393
Floods of Lake Eyre by V. Kotwicki — W.H. van der Molen 394
Groundwater Resources of the European Community by the Commission of the European Community — W.H. van der Molen 394
Stochastic Hydrology by A.I. MacNeill and G.J. Umphrey (Editors) — J.R. Slack and K.E. Bencala 396

Errata. 397
